

Game Sense Studio - small, young, informal.

What we do:

- Art, design, icons – any direction and complexity.
- Mobile games and applications. Also for social networks.
- Promo campaigns in social and mobile networks. From creating assets to KPI reports.
- Board games (our works «Остров Страх», «Игросказ», «Данетки»).
- Intellectual property, creative and copyright.
- Creating and CEO of websites.

The games are the love of our lives.
